Experience

UX Designer

May 2018 - Present

Pacific Science & Engineering

Conduct interaction and visual design, user experience research, and front end development across multidisciplinary applications for use by Navy and government personnel. Collaborate with subject matter experts to meet user needs and innovate on existing technology.

Programming Instructor

August 2017 - May 2018

ThoughtSTEM

Taught coding lessons to classes between the grades of Kindergarden and Middle School. Received lessons in JavaScript, Java, and Racket programming languages.

UX Designer

August 2017 - February 2018

Yomp

Worked remotely to design business-facing website from wireframes and portfolios to developed pages, and provided interactive prototypes for testing purposes.

Freelance Web Designer

January 2016 - May 2018

Independent

Conducted web design contract jobs as a designer and developer. Clients included a campus organization, an independent business, and a university professor.

Design & Outreach Intern

August 2016 - December 2016

Skinny Gene Project

Designed logos to be used for company documents and advertisements. Interviewed company clients and employees.

Education

University of California, San Diego

September 2012 - June 2017

B.S. in Cognitive Science,
concentration in Human-Computer Interaction
Minor in Literature Writing
