User Testing – GB

- Change name
    - "Rade", "Rayd"
    - Easy to lose meaning if name is too commonplace
    - Sans serif
- Intro page
    - Good fantasy vibe
    - Looks like entering a dungeon
    - Different font, bigger font, less space between letters, sans serif
    - Up for 3-5 seconds, then blur and bring up Sign In
        - Unified color scheme
    - Door looks like prison
- Look for apps with similar goal
    - Font
- Intro
    - Make door light similar to cave light (color)
    - Robe color match scheme
    - "create account" should be in main font
- Clock
    - Not clear on function for selecting times
    - Add am/pm signifier
- Messages
    - Include day for time sent
    - "New message" dot should not be green
    - Possibly: replace time with day after that day
    - Right swipe: quick response (preset messages/emojis)
    - Include name in message page

- Bottom bar
  - Should be hamburger menu
    - Leaves room for ads! CASH
- Questions/Suggestions
  - "How do I find new people?"
    - Other pages
  - Double click to switch between main pages (feed/calendar)
  - Aesthetics are important
- *My* Questions
  - Tone
    - Find balance between epic fantasy and 8 bit old school
    - Fantasy
      - Ravens
        - Cawing & flapping form messages
        - Send button = raven
        - GB: "References are important"
    - Sound effects
      - Wind for intro screen
      - 8 bit music
        - Ask Ivy Hung – she composes for video games
          - Grif and Ailie can help too
        - Possibly combine with epic music for front page
    - Look up Shovel Knight
