* Make intro page, about us, & join page very flashy & exciting
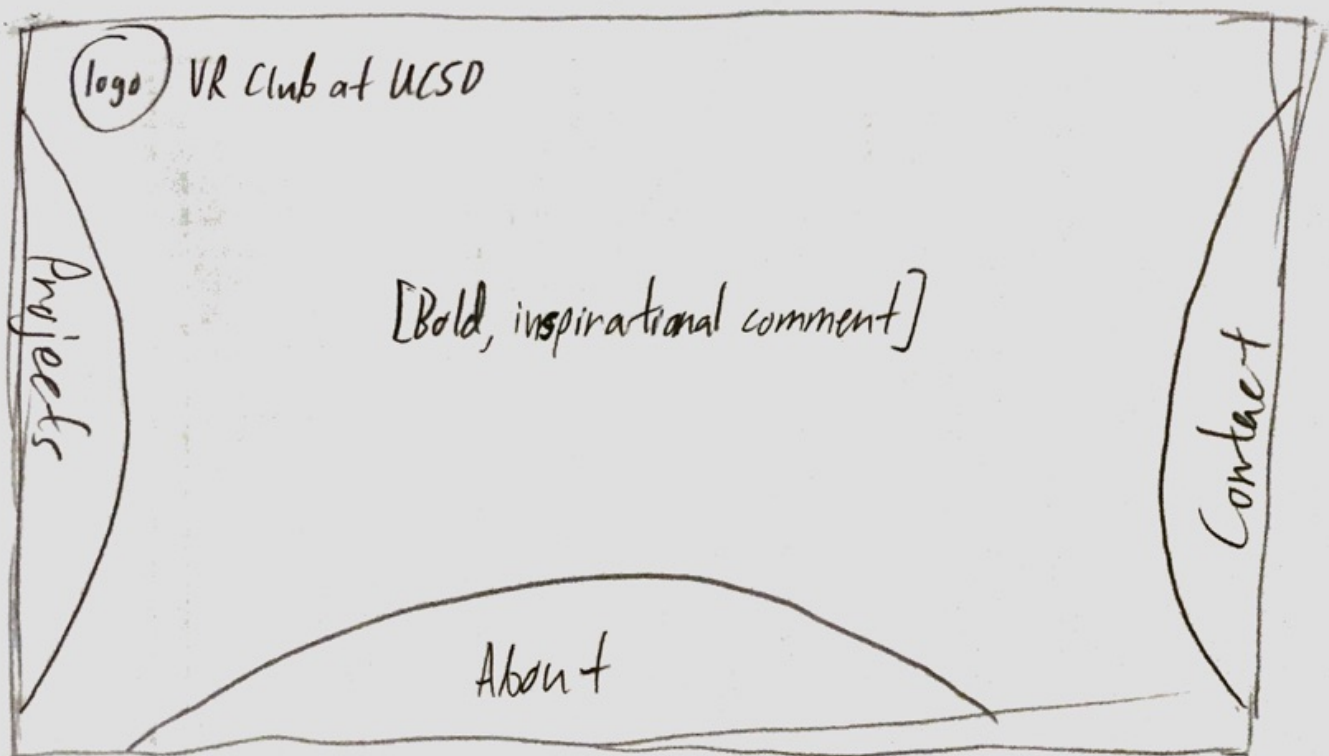

⇒ First few pages should attract new users

* Blog & Projects will be used by more serious users; they should have a more simple & practical vibe
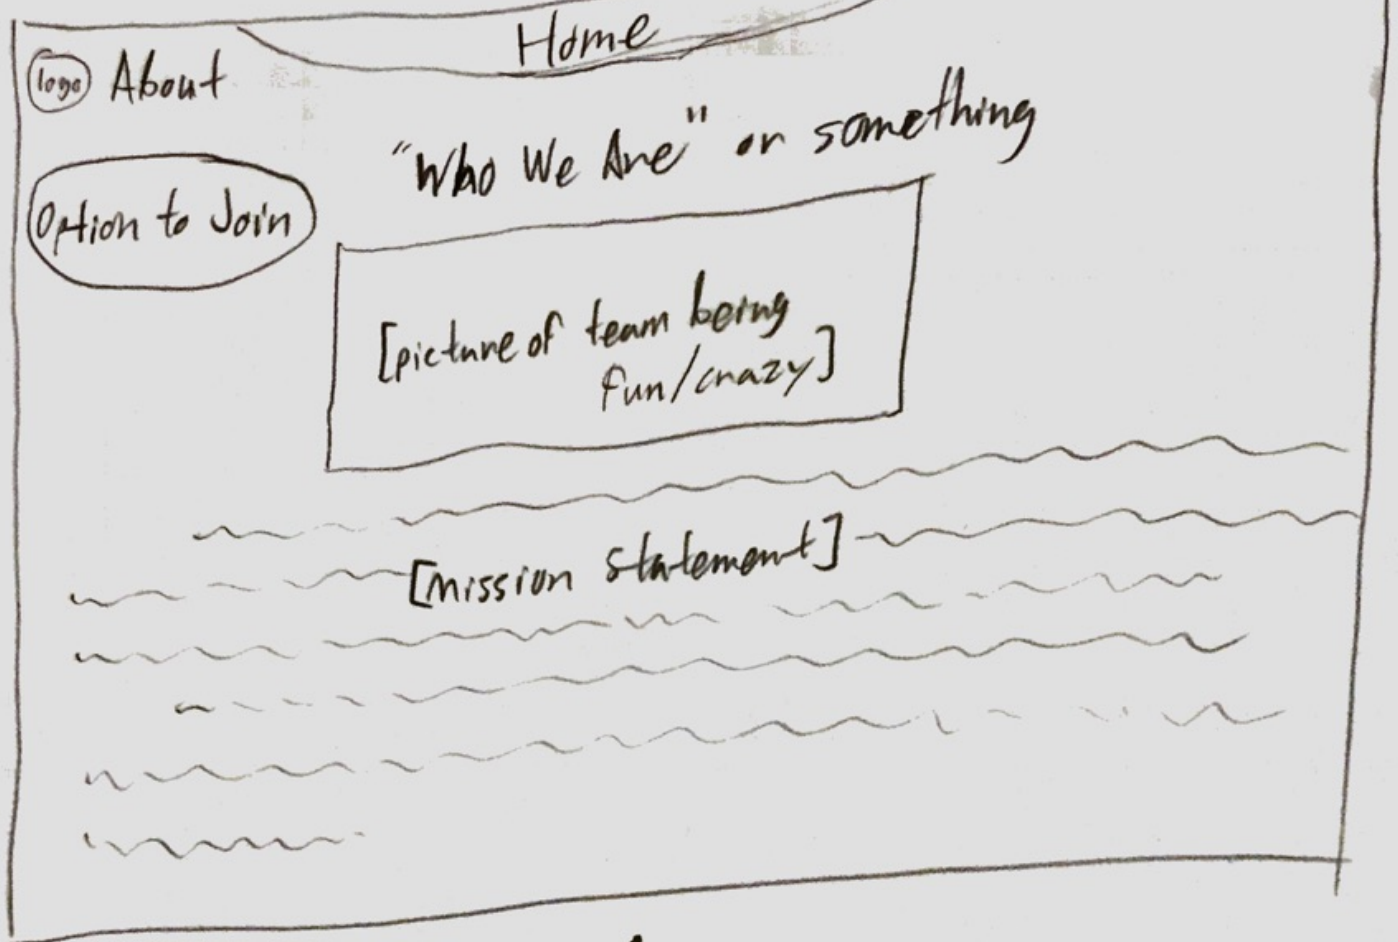

Virtual Reality Club Web Redesign

- Arc-shaped buttons pop up at start, then fade after a few moments. Hovering around their area brings them up again.
- Clicking each button will take user to that section of the site; page will slide away in the opposite direction of the button's side, to be replaced by that section.
